I think so, the sooner the better it sounds like, unless Joan wants to talk to Shaun before we set up a call.

The ball was in my court to contact the Uintah & Duchesne commissioners to figure out a time. Do you want me to proceed?

Thanks for the heads up. What is the timing of the conversation with them?

Based on Brock LeBaron's call to Jody today, it sounds like the Uintah County commissioners are quite anxious to talk to EPA regarding our consideration of a U&O FIP.

My plan was to present the same information to the commissioners as we gave industry and enviro/FLM stakeholders, which should answer their questions about why do a FIP and why now. However, reading Jody's email the commissioners may want to press us for more information.

Thanks Cindy,

Brock called this afternoon to check in on the status of this meeting. He said the commissioners are very fired up about our "possible FIP" for the Uinta Basin. They have a lot of questions for EPA, such as:

Why are we doing a FIP? Why not wait until the area goes into nonattainment? The price of

oil is already so low, industry is hurting, why does EPA want to make it worse? Has EPA already decided to do a FIP or is it still under consideration?

Just thought you'd like a heads up. Brock said they very much consider themselves stakeholders, even though the FIP would be on Indian land, i.e. outside their jurisdiction.

Thanks for setting this up!

Jody - Yes, we should set up something. Should I get a few available times from Commissioners first?

Hi Cindy,

At our U&O FIP check in today, Carl asked me to check whether you were going to set up a one-hour conference call with the Uintah and Duchesne County Commissioners to discuss the possible Uinta Basin FIP. Brock Lebaron and Sheila Vance should also be invited to provide a “united front.”

Here are the Commissioners’ names:

Uintah County
Commissioners: Bill
Stringer, Mike McKee and
Mark Raymond
Duchesne County
Commissioners: Ron
Winterton, Ken Burdick and
Gregory Todd

Please let me know, thanks!
